PROFESSIONAL SUMMARY

B.Sc. IT graduate with hands-on experience building and deploying full-stack web and mobile applications using React.js, Node.js, Express.js, MongoDB, Flutter, and REST APIs. Developed solo projects including a donation platform, gym management system, and church presentation controller featuring role-based authentication, payment gateway integration, real-time WebSocket updates, and cloud deployment. Seeking a Fresher MERN Stack Developer or Entry-Level IT role.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js

Backend: Node.js, Express.js, REST APIs, Socket.io, JWT, Bcrypt

Database: MongoDB, Mongoose, MySQL

Mobile: Flutter, Dart

Tools: Git, GitHub, VS Code, Postman, Razorpay API, Vercel, Render

Learning: TypeScript, Docker

PROJECTS

Treasure to Charity — Donation Platform 2025 – 2026

Solo Developer | MERN Stack, Razorpay, JWT, Bcrypt

- Built a full-stack donation platform with role-based access control for Donor, Admin, Buyer, and Orphanage user roles.
- Designed end-to-end workflows for donation management and physical goods distribution, eliminating third-party intermediaries.
- Implemented a 30-30-40 resource allocation model to enable transparent and auditable distribution of donated goods and funds.
- Integrated Razorpay payment gateway and improved OTP email delivery by migrating from SMTP to the Brevo HTTP API for reliable production deployment.

IronPulse — Gym Management & Attendance System 2026

Solo Developer | MERN Stack, Socket.io, JWT

- Built a gym management system covering member registration, membership tracking, payment recording, and attendance monitoring.
- Engineered a rotating QR-code token system with time-sensitive codes to eliminate credential sharing at check-in.
- Integrated Socket.io for real-time attendance updates and live dashboard monitoring across concurrent admin sessions.
- Secured the application with JWT-based authentication for role-based access control and user session management.

BiblePresenter — Church Presentation Controller 2026

Solo Developer | Flutter, Dart, Shelf, WebSocket, PDF.js

- Built a cross-platform Android application to cast Bible verses, song lyrics, PDFs, and presentations to a TV browser over local Wi-Fi.
- Embedded a Shelf HTTP and WebSocket server within the app to handle real-time cast events with low-latency synchronization.
- Implemented client-side Bible book data to reduce verse retrieval latency and remove server dependency for core scripture lookup.

EDUCATION

B.Sc. in Information Technology 2026

Viva College, Mumbai — University of Mumbai

HSC (Science) 2023

Vidya Varidhi Vidyalaya & Jr. College

SSC 2021

Sant Leela Shah High School

ADDITIONAL STRENGTHS

Strong logical problem-solving skills, fast learner with ability to pick up new technologies independently. Interests include acoustic guitar, chess puzzle solving, and competitive gaming strategy.
